120 doz. Gauze Bandages 2". .116.40
Gauze bandages 3". 89.40

May (Date) 1942 (From whom?) Bohmansson

500 Bbls Dextrose Solution $306.43

Find out from Dr. Claire
Who ordered splints?
Who paid for splints?
What about cotton gauze, antitoxins
etc. Bought by County? Where
was it distributed, for its
storage?

August 17, 1944

Information re drugs purchased from Bohmansson Drug Co. on April 30, 1942, from telephone conversation with P. J. Neale

The 250 pkgs. of antitoxin	$500.00 is tetanus antitoxin
10 pkgs. of antitoxin A56	64.00 is gas gangrene antitoxin

It was stored by Mr. M. C. Carter, of the Humboldt County Community Hospital, in the vegetable storage locker at the Community Hospital. Mr. Henline, the Laboratory Technician at the Hospital will know about this.

It is the policy of the good laboratories to give an Exchange Privilege on biologics. The datesof expiration for these drugs are marked on the packages, and on or about this date of expiration the laboratories will exchange them for fresh antitoxin. These antitoxins were from the Lilley laboratories.

Their representative is here every ten days or two weeks, and if we will find out the expiration date for these drugs, Mr. Neale will consult him concerning the matter. (The representative was in Eureka yesterday.)

were collected and labeled.

REPORT FOR EMERGENCY MEDICAL ORGANIZATION IN EUREKA BY MR. HAM

The following First Aid Stations have been inspected:

1. Lafayette School, 14th and M Streets
2. Pearsall Home, 1436 Second Street
3. Eureka Senior High School
4. Junior High School
5. Salvation Army, 5th and D Streets
6. Methodist Church, Del Norte and F Streets
7. Vonson Fuel and Feed, E and 1st Streets
8. Presbyterian Church, 15th and I Streets
9. Franklin School, Myrtle Avenue
10. Marshall School, J Street

The following First Aid Stations have been inspected by someone else, and the report turned in to our office;

1. Y. W. C. A., by Miss Ruth Morgan
2. Christian Church, by Mrs. John Stubbs

The following First Aid Stations have been closed and the equipment moved:

1. Lincoln School
2. Vonson Fuel and Feed
3. Labor Temple
4. Methodist Church

It is recommended that the following stations be abandoned and the equipment moved to the Auditorium or some other center, where it will be available for future distribution:

1. Lafayette School
2. Junior High School
3. Salvation Army
4. Christian Church

It is recommended that the following stations be maintained in their present location and condition until further developments may make a change desirable. None of these stations is causing any inconvenience to the people where they are located. They are in a place which is easily kept clean, and if the station were abandoned the room would not be used for any other purpose.

1. Pearsall House
2. Senior High School
3. Y. W. C. A.
4. Presbyterian Church
5. Franklin School
6. Marshall School

Stations not yet visited are:

1. Congregational Church. (Rev. Hudson out of town.)
2. Y. M. C. A. (Mr. Nevraumont out of town.)

Most of the equipment in the stations inspected was on hand and in good condition. Adhesive tape seems to be the material that has disappeared most often.

I have collected the equipment from the Methodist Church and the litters and splints from the Vonson Feed Co. This equipment is now at the Memorial Building.

I am now endeavoring to learn who owns the equipment in the various stations.
